The Value of this Experience:

“In these roles I consistently managed various committees, subcommittees and teams of students. The focus of my work was on the organisation and execution of countless successful careers events. These events were aimed at connecting students to representatives from leading firms, including law firms such as Hogan Lovells, Gilbert + Tobin and Ashurst. This is a core function of the Blackstone Careers team and I believe my experience puts me in the best position to lead the portfolio into 2024.”

The Mission for 2024:

- 1. Increase the availability of casual and part-time legal jobs for students! Particularly if you: (i) are still waiting to complete clerkships (ii) did not receive offers (iii) or want to gain experience in areas outside of commercial law.
- 2. Collaborate with the social portfolio to bring more enjoyable, fun and relaxed opportunities to network with firm reps.
- 3. Hold afternoon sessions in the offices of leading firms to provide students with the opportunity to observe different practice areas and network with employees.
- 4. Integrate more opportunities for students to learn about the Clerkship process and provide greater assistance to students completing applications and interviews.
- 5. Reach out to me on social media or at maxwilson.uwa@gmail.com to discuss!
